EDUCATION

BSc in Computer Science
Lviv Politechnical University

07/2017 - 07/2021,   *Lviv, Ukraine*
Courses

- Python Programming & Data Structures
- Database Management Systems
- Artificial intelligence
- Assembly Language Programming
- Computer Organization and Architecture

- Object-Oriented Design
- Network Security
- Distributed OS

SKILLS / TOOLS

Python Django JavaScript React
SQL Agile git AWS Azure
Webpack Babel Lambda Docker
NodeJS GraphQL Redis
Unit testing Visual Studio Ubuntu

WORK EXPERIENCE

Backend Python Developer
Bodytrak

since 07/2021,   *London, UK*
Bodytrak is a UK-based technology company specializing in wearable sensing solutions to improve safety, optimize performance and prevent illness.

Achievements/Tasks

- Designed, Developed, Delivered Back-End system for data analyzing Web Platform (Django, React, Azure, PostgreSQL)
- Full-stack software development using Django and React.
- Increased page loading of the web application by 200% (from 2s of seconds to 0.1s of seconds). Made it fault-tolerant (Python, Redis, Celery, GraphQL)
- Developed administrator panel (Django admin).
- Set up communication between multiple services in our system, allowing new features deployment process to go less error-prone (Docker, Azure)
- Coordinated development process of the web application (Jira, BitBucket, Postman, Slack)

Junior Python Developer
SoftFormance

10/2020 - 04/2021,   *Lviv, Ukraine*
SoftFormance is a commercial company providing a range of services in the web development industry, mostly working on e-commerce websites for clients from the US.

Achievements/Tasks

- Developed software code using Python programming language to meet design specifications, and user requirements as well as delivering high-quality applications within specified deadlines.
- Worked in a Scrum/Agile environment to plan and estimate work at different levels (story, sprint, release).
- Full-stack software development using Django and React.
- Stay current with technology trends and developments in the industry and participate in service development.
- Used Django, Python, SQL and JavaScript to design and develop new sites and web-based solutions, both front end and back end.
- The SQL Server Developer worked closely with Application Developers to ensure proper design and implementation of database systems.

CERTIFICATES

CS50's Web Development with Python and JavaScript (02/2021)
By Harvard University

Current Status

- Right to work (as EU citizen)
- Pre-settled status
- Living in the UK at the moment
